

# OCEANO 4.0 RGBW

OCEANO 4.0 8W AL-AL 26° RGBW 24V  
PWM HC 1,5M

Cod: **CEA08PCM100C00**

#### IdroSkud® protection system

- polarity reversal protection
- voltage spikes protection
- water infiltration protection

#### Protection class III

Designed to be supplied from a separated extra-low voltage (SELV) power supply

#### IP 68 up to 10m

Protected against continuous immersion up to 10 meters

#### IP 66

Protected against powerful power jets, 100 liters per minute

#### IK 09

Protected against impact of 10 J

#### High temperatures

Design to withstand temperatures up to +50° C

#### Walk-over

Fixture design to withstand a static load up to 5 kN

#### C5 - Very high

corrosion resistance level ISO 9223

#### RGBW luminaire

Light source allows to mix colours controlling four channels

#### Mizar warranty

5 years warranty

## Technical description

Inground luminaire, walk-over, suitable for outdoor and underwater environments up to 10 m (IP66/IP68), with operating temperature range: -20°C / +50°C. To provide maximum versatility of application, the body can be made of aluminum or steel; the frame, aluminum, steel or brass. The light source is a multi-chip LED RGBW powered by constant voltage 24V, for maximum power of 8W, paired with a specific color-mixing TIR lens. The luminous flux makes it ideal for marking pedestrian paths or illuminating architectural details. The source is recessed for greater visual comfort. Color rendering index CRI > 90. Oceano is equipped with IdroSkud® system to protect electronic components from voltage spikes, polarity reversal and water infiltration. There are optionals for anti-glare (honeycomb and louvre) and installation accessories (draining and waterproof outercase and spring for ceiling attachment). The product must be combined with a power supply to ensure its operation. The power supply must be ordered separately. The amount of luminaires that can be connected to a single power supply varies depending on the type of

MIZAR is a brand of REER SPA
