

LUCIS 1.0 2W BK9005 A35° 4000K 24V

Cod: LUCOOFCZOBOA00

IdroSkud® protection system

- polarity reversal protection
- voltage spikes protection
 water infiltration protection

Protection class III

Designed to be supplied from a separated extra-low voltage (SELV) power supply

P 66

Protected against powerful power jets, 100 liters per minute

date: 28/07/2025

IP 67

Protected against temporary immersion (30 minutes) up to 1 meter

IK 10

Protected against impact of 20 J

High temperatures

Design to withstand temperatures up to +50° C

C5 - Very high

corrosion resistance level ISO 9223

Mizar warranty

5 years warranty

Technical description

Wall-recessed fixture, suitable for outdoor environments (IP66/IP67), with wide operating temperature range: -20°C / +50°C. The body is made of aluminum protected by polyester epoxy paint to ensure corrosion resistance of 1500 hours in salt spray test. The light source consists of a single 2W power Led chip powered at 24V, constant voltage with integrated driver. The rectangular bezel has an oval opening to obtain a circular diffused light beam oriented toward the floor. The luminous flux and design make it ideal as a walkway marker light for footpaths or flights of stairs. Color rendering index CRI > 90. The Lucis is equipped with IdroSkud® system to protect electronic components from voltage spikes, polarity reversal and water infiltration. Installation accessories are provided (wall and exterior insulation coating outercase). The product must be combined with a power supply to ensure its operation. The power supply must be ordered separately. The amount of luminaires that can be connected to a single power supply varies depending on the type of installation. It is up to the installer to verify the possible voltage drop by evaluating the distance between the product and the power supply.
