

# OCEANO 5

# OCEANO 5 1W AL 40° 3000K 24V 5M

Cod: CEA12DCL000H00

#### IdroSkud® protection system

- polarity reversal protection
- voltage spikes protection
- idroSkud water infiltration protection

#### Protection class III

Designed to be supplied from a separated extra-low voltage (SELV) power supply

Protected against powerful power jets, 100 liters per minute

date: 03/08/2025

#### IP 68

Protected continous against immersion up to 3 meters

#### IK 09

Protected against impact of 10 J

#### High temperatures

Design to withstand temperatures up to +50° C

### C5 - Very high

corrosion resistance level ISO 9223

### Mizar warranty

5 years warranty

# Technical description

Floodlight suitable for outdoor environments (IP66/IP68) with operating temperature range: -20°C / +50°C. To offer maximum versatility of application, the body can be made of aluminum or steel; the bracket, made of steel for both models, allows the fixture's tilt to be adjusted. The light source consists of a single 1W power Led chip powered at 24V constant voltage with integrated driver. The luminous flux makes it ideal for illuminating architectural details, garden plants or water features, thanks to the different emission angles. The source is set back for greater visual comfort. Color rendering index CRI > 90. Oceano is equipped with IdroSkud® system to protect electronic components from voltage spikes, polarity reversal and water infiltration. An accessory for installation in the ground (stake) is provided. The product must be combined with a power supply to ensure its operation. The power supply must be ordered separately. The amount of luminaires that can be connected to a single power supply varies depending on the type of installation. It is up to the installer to verify the possible voltage drop by evaluating the distance between the product and the power supply.
